LETTER TO THE EDITOR

RE: CIVIC EMPLOYEES KEEP OUR CITY FUNCTIONING

This past weekend, civic employees were out working in frigid conditions repairing vandalized fire hydrants in our city. At the same time, employees who work in traffic signals were up in buckets and on ladders repairing traffic lights that had malfunctioned due to the unbearable cold weather.

These City employees spent the weekend not at home with family, but out in frigid conditions in order to help keep our city functioning. Our members are proud to provide these important core public services each and every day and often, under varying weather conditions.

I would like to thank them for their dedication to public services.

Mike Davidson
President, CUPE Local 500
(Cell # 995-4182)
