

Pensions Forum Winnipeg, MB

When: February 22, 2010

Where: Union Centre, Room 2C
275 Broadway

Time: 5:30 p.m.

The global economy has suffered its deepest downturn since the 1930s. Many Canadians are fearful that they may retire without adequate pensions or even fall into poverty. Canada's 'fend for yourself' approach to pensions has created a patchwork system that is failing Canadians.

Did you know 8 million Canadian workers have no pension or RRSP savings?

Workplace pensions aren't protected - Unfair bankruptcy rules and unscrupulous employers have cost workers their jobs and their pensions.

Public pensions fall short - The low benefits afforded by OAS/GIS makes seniors vulnerable, especially single women, First Nations, and seniors with disabilities.

Seniors deserve better - It is unfair to ask those who built this country to live meagre lives in retirement.

This public forum will give you an opportunity to learn more about pensions and give you a better understanding of why the retirement savings of countless workers have been put at risk and what can be done to create a pension system where no one is left behind. Please join us so that, together, we can move forward towards retirement security for all workers and their families.

Admission is free and members of the public are welcome.
