*CUPE Members Deliver
Quality Public Services*

positively
Public
the Winnipeg Way!

Public Employees...

We work for you!

PUBLIC SERVICES MATTER!

Everyday, in countless ways, CUPE members deliver high-quality services to the public that make Winnipeg a great place to live.

We're the City support workers who maintain your parks, groom the golf courses, serve you at the libraries and pools, remove snow from the streets and provide technical expertise so that the water from your tap is pure and safe.

SO WHAT'S THE PROBLEM?

Over the last three years, City Council has privatized garbage collection, sold off city assets and handed Assiniboine Park to private organizations to run.

Next in line for possible private delivery are water and wastewater treatment, library services, janitorial functions in civic buildings and the operation of civic golf courses.

Public services are the building blocks for strong communities. It's important that we protect and improve our public services – not sell them off!

POSITIVELY PUBLIC CAMPAIGN!

CUPE members are campaigning to keep City services public. Winnipeggers know that strong public services create the quality of life we deserve in our city, and we are proud to do our part.

Public services belong to you. We all pay for them. Don't let anyone eliminate the services you deserve.

WHAT CAN WE DO?

We are encouraging everyone to speak out about the importance of public services. **You can:**

- write a letter to the newspaper
- contact your Councillor (see back)
- post this brochure in your workplace or pass it on to a friend

STAY INFORMED!
